

http://www.beonespark.com/discover/creator_projects/465

The Center for Applied Space Technology will be participating in the **One Spark Festival** in Jacksonville, Florida, 17-21 April 2013. We will be featuring our “**Cell Cultivation and Organogenesis in Microgravity**” (**CCOM**) program and are eager to share the CCOM objectives and capabilities with festival attendees.

As a crowd-funding event, funds will be distributed to One Spark participants, or Creators, based upon the number of votes cast by attendees for each particular project. The CCOM will be presented in the **Sun Trust Tower** at **76 S. Laura Street** in **Space #34** of the **Technology Cluster** on the **Sixth floor**.

CAST will have representatives available throughout the festival to explain the **CCOM** strategy and objectives. We will also be presenting on the **Main Street Pitch Deck** on **Thursday** evening at **7:30 pm**. We look forward to the opportunity to meet with you, discuss the ‘possibilities’, and gain your support and vote!

“VOTING IS THE WAY CREATORS GET FUNDED!”

Project Name: Cell Cultivation and Organogenesis in Microgravity
Entry Number: 465
Location: Sun Trust Tower Space #34 – Technology Cluster, Sixth Floor
Pitch: Main Street Pitch Deck – Thursday, 18 April at 7:30 pm
